

Glendale School District
COVID-19
At-Home Daily Student Monitoring

KEEP THIS INFORMATION FOR DAILY REFERENCE

Prior to arriving at school or the bus stop each day, parents/guardians must screen their student for symptoms of COVID-19. Symptom screening includes taking your child's temperature, monitoring for COVID-19 symptoms, and recent exposure to someone diagnosed with COVID-19 or for suspected exposure to COVID-19.

If any statements below are true, the student **must be kept at home** and the student's health care provider and school nurse should be contacted.

If your student has asthma or allergies, please ensure each condition is well controlled and your child takes their medications before school so they don't present with COVID-like symptoms. Any student who has symptoms of COVID-19 will be sent home.

Are any of these statements true?

- *Fever of 100.4 °F or greater, new onset of cough, *or* shortness of breath unrelated to a pre-existing condition **OR**
- * Student has **2** of the following symptoms: sore throat, runny nose/congestion, chills, headache, nausea or vomiting, stomach pain, diarrhea, muscle pain, loss of taste/smell **OR**
- * Student has had close contact with a person diagnosed with COVID-19 or to someone who is under quarantine for possible exposure to COVID-19 in the past 14 days **OR**
- * Student or family member has tested positive for COVID-19

If any of the above statements are true, the student **must be kept home**. Please notify your student's doctor and the school nurse by phone or email COVID@gsd1.org

Thank you,
Georgette Selecky, RN, CSN
